

RESUME

Name: Shreyash Sadanand Deshpande

Email: shreyash.deshpande.ssd@gmail.com

Phone: +91 8999245956 / +91 9403940946

Address: Kaustubh apt. Mahalakshmi Co-Op So. Sinhgad rd. Pune 411051

Professional Summary

Results-driven DevOps / Site Reliability Engineer (SRE) with 4+ years of experience in fintech and banking domain applications. Skilled in CI/CD pipelines, containerization, monitoring, and infrastructure automation. Hands-on experience with Jenkins, Git, Docker, Kubernetes, OpenShift, Linux administration, and Bash scripting. Strong background in EOD processing, SQL reporting, log monitoring, and disaster recovery operations.

Professional Experience

1. Infinix Global Fintech Pvt. Ltd. (June 2019 - December 2022)
 - Role: Jr. Solutions Consultant / Technical Support
 - Performed system monitoring, EOD reporting, SQL automation, and disaster recovery operations.
 - Projects: Kondor (Axis & IDBI), FTNSLR ensured service availability and log Automation
2. Agile Genx Fintech Pvt. Ltd. (January 2023 - Present)
 - Role: Site Reliability Engineer (SRE)
 - Supporting FMCONVERGE system: maintaining uptime, configuring monitoring, patching, user access control, log automation, and DR readiness.

Technical Skills

- DevOps Tools: Jenkins, Git, Splunk
- Containerization & Orchestration: Docker/Podman, Kubernetes, OpenShift
- Cloud Platforms: AWS (basic)
- Monitoring & Security: Prometheus, Grafana, Container Security Scanning
- Scripting & Automation: Bash
- Databases: MySQL (Query Optimization), Oracle 10g, 11g

- Backup & Recovery: rsync, tar, scp
- Linux Admin: User Management, Disk Partitioning, Package Installation (yum), Cron Jobs, Log Analysis

Projects

1. Kondor Support in Axis Bank (June 2019 - March 2021)
 - Role: Jr. Solutions Consultant
 - Performed proactive service monitoring and ensured 24x7 availability of mission-critical banking systems.
 - Managed and verified automated cronjob schedules across KGR and KPLUS servers.
 - Optimized database processes using stored procedures and enhanced system stability.
 - Executed Disaster Recovery (DR) switchovers, ensuring business continuity.
 - Creating & Executing SQL statements in Database to share reports.
2. Kondor Support in IDBI Bank (July 2021 - October 2021)
 - Role: Solutions Consultant
 - Provided on-call technical support and issue resolution for production systems.
 - Installed and configured Kplus & FR applications on user systems, reducing setup time by 30%.
 - Automated curve rate updates and enhanced report generation workflows.
 - Creating & Executing SQL statements in Database to share deals reports.
3. FTNSLR Support (Nov 2021 - Dec 2022)
 - Role: Technical Support
 - Streamlined end-of-day (EOD) activities to ensure accurate financial data processing.
 - Creating & Executing SQL statements in Database to share month end reports.
 - Deployed patches in UAT environments, enabling safe release cycles.
 - Facilitated DR switchovers and conducted backup verifications for data integrity.
4. FMCONVERGE System (Jan 2023 - Present)
 - Role: Technical Support
 - Automated server monitoring and log management, reducing manual intervention.
 - Handled patch deployments and user access configurations with strict role-based controls.
 - Maintained synchronization between DR and production environments, boosting fault tolerance.
 - Supported data migration tasks and conducted deal spooling operations.
 - Running EOD reports. Sharing SQL based reports like EOD reports PnL report

DevOps Project

Hotstar-like OTT Platform with DevOps Automation

- Built Flask OTT platform and containerized using Docker
- Deployed application on Kubernetes cluster
- Implemented CI/CD pipeline for automated deployment
- Configured monitoring using Prometheus and Grafana

Certifications

RHCSA (Red Hat Certified System Administrator)

1 EX188 – Red Hat Certified Specialist in Containers

Academic Qualifications

- M.Sc. (Computer Science), Sangola College, Sangola 2020 | 75.48%
- B.Sc. (Computer Science), Sangola College, Sangola 2015 | 65.83%
